APPLICATION DETECTION & RESPONSE

WITH CROWDSTRIKE STORE PARTNER – **TRUEFORT**

AGENDA

- Understand Why Apps are Still at Risk
- Learn to Improve App Risk Posture, Protection & Cloud Migration
- Introduce CrowdStrike Store App - TrueFort

CROWDSTRIKE

TRUEFORT

YOUR APPS RUN YOUR BUSINESS & THEY ARE STILL EXPOSED

INFRA OR APPSEC FOCUS

Expand the lens – Code and host view is not **app-level and doesn't secure app surfaces**

STATIC DATA & POLICY

Go dynamic & behavioral – limited **app** context misses evasive attacks and ops changes

(Avg. 197 days* detection)

OPS BURDEN

Shorten TTR & TTV – Consolidate across teams, consoles, agents and policies

(Avg. 69 days* response)

*Ponemon Institute for IBM, July 2019

TRUEFORT FORTRESS XDR
PROTECT YOUR APPS, PROTECT YOUR BUSINESS

APPLICATION

Visualize and harden apps with **depth and clarity**:

- Know components
- Map relationships
- Close risks

DETECTION

See dynamic app behavior with **behavioral analytics**:

- Baseline and monitor
- Auto-policy & microsegment
- Detect anomalies

RESPONSE

Prevent zero-day and new app risks:

- Alert
- Enforce & remediate
- Investigate, report, export

TRUEFORT

TRUEFORT FORTRESS XDR ADDS APP-VISION TO FALCON

SEE APPS
& ANALYZE ***BEHAVIOR***

AUTOMATE APP POLICY
& ***MICROSEGMENTATION***

REAL-TIME MONITOR
& ALERT ***FALCON***

TRUEFORT

TRUEFORT FORTRESS XDR
PROTECT YOUR APPS, PROTECT YOUR BUSINESS

USE CASES

- **Improve app risk posture** like managing service accounts
- **Increase protection** with anomaly detection and microsegmentation
- **Support cloud migration** with visibility, and maintaining posture and consistent policy
