# FALCON DISCOVER
## CROWDSTRIKE IT HYGIENE

Get real-time visibility into who and what is in your network. Instantly get an accurate inventory of the systems in your environment, of the software they are running and of how user accounts are being utilized.

## FALCON DISCOVER — REAL-TIME VISIBILITY AND INVENTORY

For IT and Security teams who need to identify and track computers and applications on their network, Falcon Discover™ is the CrowdStrike™ IT hygiene solution. Falcon Discover monitors and inventories systems, application usage and user account usage in real time.

- **See who is on your network at all times** — The real-time system inventory gives you a view of all managed and unmanaged devices in the environment in a simple dashboard with drill-down options.

- **Find out what applications your users are running** — The real-time application inventory provides a view of all applications running in the environment via a simple dashboard with drill-down options. You can see what apps are CURRENTLY running on which hosts without impacting the endpoint. You can also determine when the application was originally launched and pivot to other endpoints running the same app to gain more context, finding usage per application or by host.

- **See where and how user accounts are being accessed across your environment** – Account monitoring provides visibility into the use of administrator credentials and password resets across the enterprise. Falcon Discover provides insight into logon trends (activities/duration) where credentials are being used, and password update information.

## KEY BENEFITS

» Gain real-time and historical visibility into your assets and applications

» Be better prepared to face threats

» Identify rogue computers instantly

» Find unprotected systems

» Find out what applications your users are truly using

» See where privileged accounts are being accessed
## KEY PRODUCT CAPABILITIES

**BE READY TO FACE THREATS**

- **Strengthen your security posture proactively** — Falcon Discover allows you to identify what is being utilized so you can ensure your best possible readiness to face attacks. By reporting unauthorized systems and applications in your environment, Falcon Discover enables you to improve your security posture by addressing security issues ahead of attacks.

- **Detect unwanted and vulnerable applications** — Detect whether unpatched or vulnerable applications are being used, so you can patch them before an attacker can take advantage.

- **Remediate unprotected and rogue systems** — The system inventory allows you to find and remediate unmanaged systems and also address systems that could be a risk on your network, such as unprotected BYOD or third-party systems.

- **Mitigate abuse of privileged accounts** — Monitor the usage and creation of administrator credentials across your enterprise and detect if they are being used inappropriately and out of context.

**GO BEYOND SECURITY**

- **Reduce licensing costs** — The real-time application inventory tells you how often and how long users run an application, enabling you to reconcile license costs with real needs.

- **Satisfy compliance requirements** — By fully automating the visibility and inventory required to ensure some compliance requirements, Falcon Discover helps you achieve, maintain and prove compliance obligations.

**ENJOY IMMEDIATE TIME-TO-VALUE —**

- **Save time, effort and money** — Cloud-based Falcon Discover is delivered by the CrowdStrike Falcon™ Platform and does not require any on-premises management infrastructure.

- **Immediately operational** — Falcon Discover can be deployed in hours and hits the ground running, monitoring and recording immediately upon installation without requiring reboots, query writing, baselining or complex configuration.

- **Zero impact on performance** — Inventory searches take place in the cloud and have zero impact on endpoints and the network.

## PREVENTATIVE SECURITY AND BEYOND

Security starts with discovering where you're not protected, so you can close the gaps and be better prepared to face threats. Falcon Discover provides the visibility and information that security and IT teams need to ensure comprehensive defense against today's sophisticated threats.

## CROWDSTRIKE

**CrowdStrike** is the leader in cloud-delivered next-generation endpoint protection.CrowdStrike has revolution-ized endpoint protection by being the first and onlycompany to unify next-generation antivirus, endpoint detection and response (EDR),and a 24/7 managed hunting service — all delivered via a single lightweight agent.
