CrowdStrike Falcon® Endpoint Protection Premium is the industry’s only unified solution combining next-gen AV (NGAV), endpoint detection and response (EDR), managed threat hunting, integrated threat intelligence and IT hygiene.

In addition to stopping breaches, Falcon Endpoint Protection Premium allows you to prepare before an attack occurs by adding the visibility you need to reveal areas of exposure — it identifies unprotected and rogue systems and monitors what applications and user accounts are being used in your environment.

**KEY PRODUCT CAPABILITIES**

**AI-POWERED NGAV**
- Protects against the entire attack spectrum
- Combines the best prevention technologies: machine learning, AI, indicators of attack (IOAs), exploit blocking and more — to stop known and unknown malware, ransomware, malware-free, fileless, and sophisticated and stealthy-nation state attacks
- Fully protects endpoints online and offline

**INTELLIGENT EDR**
- Prevents silent failure by capturing raw events for automatic detection of malicious activity, unparalleled visibility, proactive threat hunting and forensic investigations
- Unravels an entire attack in one easy-to-grasp process tree enriched with contextual and threat intelligence data
- Provides powerful response action to contain, investigate and remediate compromised systems

**24/7 MANAGED THREAT HUNTING**
- An elite team of security experts proactively hunt, investigate and advise on activity in your environment to ensure threats and high-priority alerts don’t get missed
- Alert prioritization uniquely pinpoints the most urgent threats and resolves false positives

**KEY BENEFITS**
- Stops breaches
- Simplifies endpoint protection
- Provides unparalleled real-time and historical visibility on endpoint events and activities
- Ensures stealthy attacks don’t go undetected
- Accelerates investigation and remediation
- Delivers automatic and actionable understanding of the attacks in your environment
- Reveals areas of exposure
- Elevates your security expertise and capabilities
CrowdStrike Products

FALCON ENDPOINT PROTECTION PREMIUM

IT HYGIENE
- Detailed visibility over applications, assets and user accounts
- Identifies rogue computers and unprotected systems
- Sees who and what is on your network at all times

DEVICE CONTROL
- Detailed visibility on USB device usage
- Granular policy enforcement to ensure control over USB devices used in the environment

INTEGRATED THREAT INTELLIGENCE
- Enables you to fully understand the threats in your environment and easily prioritize a response with threat severity assessment
- Eliminates guesswork, so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of IOCs for faster, better protection

FULLY MANAGED ENDPOINT PROTECTION DELIVERED AS A SERVICE BY A CROWDSTRIKE TEAM OF EXPERTS

CLOUD-NATIVE PLATFORM

Reduced cost and complexity: Eliminates the need for constant signature updates, on-premises management infrastructure or complex integrations

Works on Day One: Deploys and is operational in minutes without requiring reboots, fine-tuning, baselining or complex configuration

Zero impact on the endpoint: Installation and day-to-day operations have zero impact on endpoints — even when analyzing, searching and investigating

ABOUT CROWDSTRIKE

CrowdStrike® Inc., a global cybersecurity leader, is redefining security for the cloud era with an endpoint protection platform built from the ground up to stop breaches. The CrowdStrike Falcon® platform’s single lightweight-agent architecture leverages cloud-scale artificial intelligence (AI) and offers real-time protection and visibility across the enterprise, preventing attacks on endpoints on or off the network. Powered by the proprietary CrowdStrike Threat Graph®, CrowdStrike Falcon correlates over two trillion endpoint-related events per week in real time from across the globe, fueling one of the world’s most advanced data platforms for security.
