

# CROWDSTRIKE FALCON FOR HEALTHCARE

## CLOUD-DELIVERED ENDPOINT PROTECTION FOR HEALTHCARE ORGANIZATIONS

Protect ePHI with a solution that provides unparalleled endpoint protection, efficacy, scalability and ease of use – with immediate time-to-value and zero performance impact.

### CROWDSTRIKE FALCON: REVOLUTIONIZING ENDPOINT PROTECTION FOR HEALTHCARE ORGANIZATIONS

Despite investing billions of dollars in security – legacy security solutions are failing to stop the constant attacks facing healthcare organizations. The requirement to share data across endpoint environments compounds security challenges by increasing attack surfaces.

CrowdStrike Falcon® solves these problems with a cloud-delivered endpoint protection platform that provides comprehensive security while scaling to meet the endpoint requirements of even the largest organizations. Falcon's lightweight agent deploys instantly to begin streaming security data to the CrowdStrike cloud for immediate action.

#### CROWDSTRIKE FALCON PROVIDES:

**Better Protection** – Advanced artificial intelligence and behavioral blocking, as well as intelligent endpoint detection and response (EDR) and proactive threat hunting to stop known and unknown threats.

**Increased performance** – The entire platform is delivered via one lightweight agent to enable all prevention, detection, and response capabilities with virtually zero impact on your endpoints.

**Ease of Use** – The Falcon platform is immediately operational via a single agent that deploys in minutes with minimal effort from your security team.

### KEY BENEFITS

- » Defends against all attacks no matter where endpoints are located
- » Operationalizes and scales security in hours, not months
- » Amplifies protection with 24x7 managed threat hunting
- » Streamlines security with automated, intelligent threat prevention and detection

"CrowdStrike gives us protection and visibility into threats that we had no idea were there. The simple fact is, CrowdStrike is technically strong, they do what they say they're going to do, and they stand behind their product."

– PETE MURPHY,  
CIO CARDINAL INNOVATIONS  
HEALTHCARE

## KEY PRODUCT CAPABILITIES

### 1. STOPS ADVANCED, TARGETED ATTACKS

- **Stop Ransomware** — Falcon uniquely combines exploit blocking, machine learning, and behavioral Indicators of Attack (IOAs) to protect against known and unknown ransomware.
- **Continuous Endpoint Monitoring** — Falcon provides real-time and historical visibility into your endpoint environment, enabling you to instantly detect and respond to malicious activity.
- **Proactive, Intelligent Protection** — With machine learning and behavioral analytics, Falcon can block known and unknown malware and fileless attacks other solutions miss.

### 2. DELIVERS IMMEDIATE TIME-TO-VALUE

- **Saves Time, Money and Effort** — Falcon's cloud-delivered protection doesn't require any on-premises management infrastructure, deploying within minutes to begin recording and reporting from Day One.
- **Scales to Meet Your Needs** — As a SaaS solution, Falcon seamlessly spans all endpoint environments — physical virtual, or cloud.
- **Zero Performance Impact** — The lightweight falcon agent (25MB) deploys to endpoints, while all analysis and correlation takes place in the CrowdStrike Threat Graph™ with zero performance impact on your endpoints.

### 3. EFFECTIVELY ADDRESSES SECURITY RISKS

- **Aligns with Critical Healthcare Compliance Requirements** — CrowdStrike is independently validated to assist healthcare organizations in achieving HIPAA and NIST SP 800-53 compliance and aligns with the NIST Cybersecurity Framework.
- **Complete Endpoint Visibility** — Vulnerabilities and unprotected endpoints are shown in real-time, with all Falcon solutions accessed and enabled via the same management console.
- **Force Multiplier** — Falcon OverWatch™ 24x7 managed threat hunting enhances your security expertise with a team of experienced global cyber intrusion analysts proactively identifying and remediating threats.

## SECURE HIGH-VALUE DATA WITH A COMPREHENSIVE, COMPLIANT, AND EASY-TO-USE SOLUTION

Adversaries continue to innovate and so should your cybersecurity. Only CrowdStrike Falcon unites next-generation EDR capabilities backed by managed threat hunting and integrated threat intelligence. The Falcon platform's real-time and historical endpoint visibility combines with advanced protection technology to stop advanced attacks such as ransomware and prevent silent failure. Falcon's ability to quickly identify known and unknown threats enables you to respond immediately to incidents that remain invisible to existing defenses.

CrowdStrike® is the leader in cloud-delivered endpoint protection. The **CrowdStrike Falcon®** platform offers instant visibility and protection across the enterprise and prevents attacks on endpoints on or off the network. Falcon seamlessly unifies next-generation AV with best-in-class endpoint detection and response, backed by 24/7 managed hunting. There's much more to the story of how Falcon has redefined endpoint protection but there's only one thing to remember about CrowdStrike: We stop breaches.
