CROWDSTRIKE

FALCON ENDPOINT PROTECTION PRO

Provides true next-gen AV with integrated threat intelligence response

UPGRADE TO CUTTING-EDGE DEFENSES

CrowdStrike Falcon® Endpoint Protection Pro offers the ideal AV replacement solution by combining the most effective prevention technologies and full attack visibility with built-in threat intelligence and response. Powered by the cloud and via a single lightweight agent it operates without the need for constant signature updates, on-premises management infrastructure or complex integrations. Falcon Pro makes it fast and easy to replace your AV and get even more: superior prevention, integrated threat intelligence and immediate response.

KEY PRODUCT CAPABILITIES

AI-POWERED NGAV

- Protects against the entire spectrum without requiring daily and cumbersome updates

- Combines the best prevention technologies — machine learning, AI-powered indicators of attack (IOAs), exploit blocking, high-performance memory scanning and more — to stop ransomware and fileless attacks

- Covers the gaps left by legacy AV and fully protects endpoints online and offline

FULL ATTACK VISIBILITY

- Unravels an entire attack in one easy-to-grasp process tree enriched with contextual and threat intelligence data

- Provides unparalleled alert context and visibility

- Keeps detection details for 90 days

KEY BENEFITS

Enables you to migrate with confidence

Replaces AV quickly and easily

Simplifies endpoint protection

Protects against the entire attack spectrum

DEVICE CONTROL

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

FIREWALL MANAGEMENT

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

INTEGRATED THREAT INTELLIGENCE

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment

CONTROL AND RESPOND

- Provides powerful response action to contain and investigate compromised systems
- Ensures on-the-fly remote endpoint access for immediate action with surgical precision

ABOUT CROWDSTRIKE

CrowdStrike Holdings, Inc. (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

CrowdStrike: **We stop breaches.**

EASIEST AV REPLACEMENT

Enables the industry's fastest deployment and rapid operationalization — without requiring a reboot after installation

Only CrowdStrike provides full, automated protection across endpoints without impacting endpoint performance and end-user productivity

Automatically kept up to date with cloud-native architecture

Operates seamlessly alongside AV as you migrate
