

WHY LAW FIRMS TURN TO CROWDSTRIKE

Immediate access to Cyber Incident Response (IR) Services

Partnering with CrowdStrike® Services puts a team of seasoned IR professionals on your side, who know how cyber incident response services must be delivered in today's environment of persistent cyberattacks.

CROWDSTRIKE INCIDENT RESPONSE

As a cybersecurity attorney you are continually faced with the challenge of dealing with clients in the midst of a crisis. Time is of the essence and questions abound. Obtaining complete insight into the cause and extent of the compromise is essential for you to effectively advise your clients. Having a trusted forensic partner is essential to minimizing the impact on your client. Partnering with CrowdStrike® Services puts a team of seasoned IR professionals on your side, who know how cyber incident response services must be delivered in today's environment of persistent cyberattacks.

CrowdStrike Services prides itself on its ability to remove any friction in the process of delivering answers to those critical forensic questions — from the moment your call is received, through the engagement process, to the time the services team provides a comprehensive analysis of your client's cyber incident.

Leveraging some of the most experienced consultants in the industry, along with world-class technology, the CrowdStrike® team delivers unrivaled incident response services: quickly and efficiently arriving at a complete understanding of what has happened and then moving with speed and precision to mitigate and manage the situation.

CrowdStrike allows you to be fully informed early in the forensic engagement, so that you can provide better advice to your client and reduce the potential impact, risk and liability related to the security incident. The CrowdStrike team's consultative approach has achieved the highest marks in satisfaction from both clients and their legal representatives.

WHY LAW FIRMS TURN TO CROWDSTRIKE

1. EASY TO WORK WITH

- CrowdStrike is focused on a relationship-based partnership. The consultants understand and respect the uniqueness of your firm and your clients' needs.
- All engagements and supporting documents are customized to your specific requirements, ensuring that each engagement starts with a clear roadmap to recovery from day one.
- CrowdStrike consultants arm you with far more information than other vendors and provide it earlier in the forensic process, so that you can drive a more effective breach response strategy.
- The team strives to ensure positive results without a negative attitude. CrowdStrike is focused on being a trusted advisor and getting your business back to normal operations, not on auditing and apportioning blame.

2. PROVEN EXPERTISE

- At CrowdStrike there is no "B Team" or "learning on the job". You will engage directly with a seasoned consultant who has more than a decade of cyber forensics experience. CrowdStrike only recruits the best from within the world of cybersecurity, incident response, and forensics, resulting in a team with unrivalled expertise and skills.
- CrowdStrike's incident response approach is well proven, leveraging the innovative CrowdStrike Falcon® platform:
- Remediation starts immediately. As a cloud-based platform, Falcon offers significant advantages over the traditional incident response approaches, allowing the team to deploy and gain visibility far faster, identify attackers, and ultimately eject the attacker from the environment with fewer costs and business interruptions.

- Falcon provides complete visibility quickly, giving you details into the full incident and helping to lock down credentials and limit access.
- Falcon employs threat Intelligence to help identify and understand who is in the environment and why, thus improving your ability to respond to current and future attacks.
- Law firms have established a working relationship with CrowdStrike Services because other incident response providers failed to resolve complex breaches on behalf of their clients.

3. POSITIVE OUTCOMES

- CrowdStrike delivers high quality, high business-value results at a lower cost than traditional IR services. CrowdStrike's technology and methodology, combined with consultants' superior skills and experience, allows the team to respond and resolve incidents faster and more efficiently. The result: less hours incurred and lower costs to clients.
- As proof of client satisfaction, more than 90 percent of incident response engagements lead to an ongoing relationships with CrowdStrike, including retained incident response services and proactive services delivery.
- CrowdStrike Services has consistently received recognition from industry analysts. The Forrester Wave, for "Digital Forensics and Incident Response Providers," in Q3, 2017 reported that "CrowdStrike received the highest marks for services delivered and customer satisfaction."

CROWDSTRIKE SERVICES — ACCREDITATIONS AND CERTIFICATIONS

NSA

Accredited by the NSA for National Security Cyber Assistance Program — Cyber Incident Response Assistance.

PFI Investigator

Certified as a PCI Forensic Investigator by the payment card industry.

CrowdStrike is one of very few firms to be certified under both programs.

ABOUT CROWDSTRIKE

CrowdStrike Services equips organizations with the protection and expertise they need to defend against and respond to security incidents. Leveraging the cloud-delivered CrowdStrike Falcon® platform — next-generation endpoint protection, cyber threat intelligence gathering and reporting operations, and a 24/7 proactive threat hunting team — the CrowdStrike Services security team helps customers identify, track and block attackers in real time. This unique approach allows CrowdStrike to stop unauthorized access faster and prevent further breaches. CrowdStrike also offers proactive services so organizations can improve their ability to anticipate threats, prepare their networks, and ultimately stop breaches.
