

CROWDSTRIKE
UNIVERSITY

TRAINING CATALOG

OVERVIEW

Take full advantage of all that the CrowdStrike Falcon® platform has to offer with CrowdStrike's industry-leading training and certification. Learn what you need to know to get started with CrowdStrike, gain advanced skills to use on the job and take exams to become a CrowdStrike certified professional. At CrowdStrike University, there is a learning path and certification for you. With the right training, the CrowdStrike® Falcon platform can be harnessed by anyone.

CROWDSTRIKE UNIVERSITY

CrowdStrike University is an online learning management system (LMS) that organizes all CrowdStrike eLearning, instructor-led training and certification in one place, providing a personalized learning experience for individuals who have an active training subscription.

Fundamental cybersecurity and CrowdStrike Falcon® training is provided through a training subscription to CrowdStrike University. This per-learner training subscription provides access to self-paced eLearning courses, product update videos, the global training calendar and the online portal for taking CrowdStrike certification exams. Through CrowdStrike University, you can access:

- **Self-paced courses:** Designed to address cybersecurity fundamental knowledge and skills, CrowdStrike eLearning courses are divided into modules to allow you to stop and start as needed or jump to a specific topic.
- **Product update videos (PUVs):** Get the latest updates to CrowdStrike products, new and updated features, and other timely topics through short training videos.
- **Quick technical tips (QTTs):** Access quick technical tips for the most common problems with this how-to video series.
- **Instructor-led training (ILT):** With the purchase of CrowdStrike training credits, learners can view and register for upcoming live sessions. Learn deeper knowledge and skills from CrowdStrike experts, and practice in the CrowdStrike Falcon cloud-based training lab.
- **CrowdStrike certification:** With the purchase of exam vouchers, learners can register and take CrowdStrike certification exams through CrowdStrike's test delivery vendor Pearson VUE.

ACCESSING CROWDSTRIKE UNIVERSITY

Access is provided via a training subscription to named learners with:

- An **LMS Annual Subscription** (requires purchase) OR
- A **Customer Access Pass** — Organizations may be eligible for a specified number of free customer access passes based on contract eligibility. To find out if your organization may qualify, see the [Customer Access Pass data sheet](#).

Learners with an active LMS annual subscription or Customer Access Pass have full access to CrowdStrike University's self-paced training library, including eLearning fundamentals courses, product update videos (PUVs) and quick technical tips (QTTs). CrowdStrike training subscriptions are transferable with documented change of staff — limited to 10% of subscriptions purchased per year.

Training Catalog

Learners who want to take **instructor-led training (ILT)** must have an active CrowdStrike University account AND the learner's organization must purchase CrowdStrike **training credits** that are applied to instructor-led class sessions.

Learners who wish to take a **CrowdStrike certification exam** are strongly advised to have an active CrowdStrike University account AND the learner's organization must purchase CrowdStrike **exam vouchers** that are applied to certification exam requests. Certification exams are delivered by Pearson VUE and can be taken online or at a Pearson VUE testing center. Learners can schedule their exam at <http://home.pearsonvue.com/crowdstrike>.

Contact your account executive to purchase CrowdStrike University training subscriptions, training credits and exam vouchers. If you have a training subscription and need access to CrowdStrike University, contact your technical account manager for assistance or email LMS-Helpdesk@crowdstrike.com.

TRAINING DELIVERY

Choose from a range of flexible options, including:

- Self-paced eLearning
- Regional in-person classroom instructor-led training
- Live online instructor-led training (using remote meeting technology)
- Private on-site instructor-led training (delivered at your organization's site)
- Private live online instructor-led training

LIVE ONLINE TRAINING

Live online class sessions are delivered through Zoom remote conferencing technology. For the best learning experience, CrowdStrike suggests that learners have the following:

- Dual monitors
- Headset with microphone
- Quiet place to attend

REQUIREMENTS FOR ON-SITE TRAINING

On-site training delivery requires:

- At least two consecutive days of training (any courses)
- A surcharge of four (4) training credits for domestic travel (within the continental United States) or six (6) training credits for international travel per week.

REQUIREMENTS FOR PRIVATE CLASSES

Both live online and on-site private instructor-led training classes have a six-student minimum and a 15-student maximum per class/day of instruction.

SCHEDULING

Private or on-site training can be scheduled by contacting training@crowdstrike.com.

CROWDSTRIKE UNIVERSITY COURSES

CrowdStrike offers a robust catalog of classes with convenient options to help learners keep their knowledge current and practice new skills – ultimately empowering them to better protect your organization and stop breaches.

Self-paced eLearning and instructor-led training courses are available through CrowdStrike University. Courses may be added, modified or removed from this training catalog document; for the latest course list, view the online [training catalog](#) or sign in to CrowdStrike University and view the Content Library.

SELF-PACED ELEARNING COURSES

Take digital courses on demand at the time and pace that is most convenient for you. CrowdStrike's self-paced courses are designed with interactivity in mind.

FALCON PLATFORM ARCHITECTURE OVERVIEW

Length 30 minutes

Cost Included with LMS annual subscription or access pass

Delivery Self-paced eLearning

Description Learn about components of the Falcon platform and how they defend against a typical attack scenario. Learn about Falcon Prevent™, Falcon Insight™, Falcon Overwatch™ and CrowdStrike Intelligence applications.

FALCON PLATFORM TECHNICAL FUNDAMENTALS

Length 25 minutes

Cost Included with LMS annual subscription or access pass

Delivery Self-paced eLearning

Description Join Team Falcon in this high-level overview of the Falcon console. Learners will select their learning path based on their main job responsibilities. This course will provide information for apps in the Falcon console that are relevant to different roles and provide a high-level walkthrough of these apps. Learners will also be provided with additional courses and materials to help them on their heroic journey to save the organization!

FALCON PLATFORM ONBOARDING CONFIGURATION

Length 45 minutes

Cost Included with LMS annual subscription or access pass

Delivery Self-paced eLearning

Description This course provides the fundamental administrative tasks that are necessary to get CrowdStrike Falcon up and running in your environment.

Training Catalog

FHT 104

**ACTIVITY APP FUNDAMENTALS****Length** 30 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Understand the various features found in the Activity App. This includes how to operate pertinent tools to determine the "who, what, when, where and how" of a detection.

FHT 105

**SENSOR INSTALLATION, CONFIGURATION AND TROUBLESHOOTING****Length** 45 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Understand what to consider during the pre-installation phase of a Falcon sensor, see installation examples and options, learn to install a sensor and get troubleshooting tips for common installation issues.

FHT 106

**FALCON CUSTOMIZABLE DASHBOARDS****Length** 20 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Falcon customizable dashboards help users see preconfigured views of commonly useful detection data. Users will learn to surface specific details or summarize unique combinations of information for their organization's needs. Users will learn to create their own customized dashboards to use privately or share with other users in their organization.

FHT 107

**FALCON FIREWALL MANAGEMENT****Length** 15 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Understand the technical foundational skills required to be able to add, manage, enable/disable and delete Firewall rules, rule groups and policies.

FHT 109

**USING MITRE ATT&CK AND FALCON DETECTION METHODS TO UNDERSTAND SECURITY RISK****Length** 15 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Understand about the MITRE framework, CrowdStrike implementation of MITRE, CrowdStrike objectives and MITRE, and MITRE-based Falcon Detections Framework.

Training Catalog

FHT 120

INVESTIGATION FUNDAMENTALS

Length 35 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learn how the Falcon platform captures data and how to access that data through the Falcon console. Learn which apps should be used for different types of investigation.

FHT 121

SPOTLIGHT APP FUNDAMENTALS

Length 40 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Falcon Spotlight™ is a scanless endpoint vulnerability management solution that provides a view of vulnerabilities that exist in your environment. Learn the benefits of Falcon Spotlight, how it helps reduce the risk of a breach and how to use Spotlight effectively.

FHT 122

FALCON DISCOVER APP FUNDAMENTALS

Length 20 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learn about the benefits of the Discover App, the Overview Dashboard, Application Inventory, Asset Inventory and Account Monitoring, and Drive Encryption and Filter Functionality.

FHT 123

FALCON HORIZON

Length 36 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Falcon Horizon continuously monitors AWS and Azure cloud services for critical security issues and common configuration errors. This course allows learners to see the benefits of using Falcon's cloud security posture management tool to close security gaps and keep their cloud data secure, while meeting industry recommendations.

FHT 130

INTELLIGENCE FUNDAMENTALS

Length 30 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learn the fundamentals of the Falcon X™ threat intelligence application, CrowdStrike Intelligence subscription, reports, threat actors, tailored intelligence, the API and integration points. Learn to submit requests for information (RFIs) and malware for analysis and get recommendations.

Training Catalog

FHT 131

**FALCON X SANDBOX - DERIVING INTELLIGENCE FROM FALCON X SANDBOX****Length** 20 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Falcon Sandbox™ is the most advanced and powerful malware sandbox available. This course will show you how to investigate, submit and analyze files to protect your organization from malicious threats.

FHT 132

**FALCON X RECON FUNDAMENTALS****Length** 15 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learners will learn the fundamentals of Falcon X Recon. Including how to search, set up monitoring rules and notifications and how to view their search and notification results.

FHT 140

**REAL TIME RESPONSE FUNDAMENTALS****Length** 60 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learn to use Falcon Insight's Real Time Response (RTR) feature and run incident response commands directly within the Falcon console to respond to detected incidents.

FHT 150

**INCIDENT FUNDAMENTALS****Length** 45 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learn the fundamentals of Activity > Incidents. Participants will learn how to work through and edit an incident. This course includes guided walkthroughs and video demonstrations.

FHT 160

**FALCON FOR MOBILE****Length** 15 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Bring endpoint detection and response to mobile devices. Learn how Falcon for Mobile™ allows users to view detections and events from your organization's supervised and unsupervised mobile devices.

Training Catalog

FHT 170

**FALCON IDENTITY PROTECTION****Length** 60 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learners will learn about Falcon Identity Protection and ways to gain value beyond initial deployment. In this course you will learn about: Key components of Identity Protection Module, installation and deployment process, visibility and detection use cases, zero trust cases and policy management basics.**FALCON CONTAINER SECURITY: IMAGE ASSESSMENT AND FALCON CONTAINER SENSOR**

FHT 171

**Length** 45 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Falcon Container Security delivers complete security and compliance for cloud-native applications and solves many common challenges developers and system administrators face, such as vulnerable images or apps, cross container attacks and container breaks and privileged escalations. This course will guide learners through the steps needed to create or push images for assessment, how to secure Kubernetes in the Falcon Container Sensor and how to view and analyze the data in the dashboards.**FALCON FORENSICS FUNDAMENTALS**

FHT 180

**Length** 15 minutes**Cost** Included with LMS annual subscription or access pass**Delivery** Self-paced eLearning**Description** Learn about Falcon Forensics and how to deploy Falcon Forensics using the Real Time Response (RTR) feature of Falcon Insight and PSFalcon.

INSTRUCTOR-LED TRAINING COURSE

Through CrowdStrike University, cybersecurity professionals can take advantage of instructor-led training across multiple days and time zones around the globe. Engage with CrowdStrike experts and fellow students live, and practice what is learned in class in the cloud-based CrowdStrike Falcon lab environment. See the CrowdStrike training calendar for upcoming events hosted by CrowdStrike. All instructor-led training courses require each learner to have an LMS annual subscription or Customer Access Pass to CrowdStrike University.

FALCON PLATFORM FOR ADMINISTRATORS

Length 1 day | 8 hours

Cost 2 training credits

Delivery Instructor-led regional classroom, live online or on-site

Description Learn technical fundamentals of the CrowdStrike Falcon platform. The course is appropriate for new platform users and focuses on installation, configuration and day-to-day management. A complete console walk-through and hands-on labs are included.

Learn More See [FHT 200 course syllabus](#)

FALCON PLATFORM FOR RESPONDERS

Length 1 day | 8 hours

Cost 2 training credits

Delivery Instructor-led regional classroom, live online or on-site

Description Learn the best use of the Falcon platform for incident triage. The course is appropriate for incident responders or security operations center (SOC) analysts who use the Falcon platform daily, and focuses on triaging and responding to alerts. Hands-on lab exercises are included.

Learn More See [FHT 201 course syllabus](#)

Training Catalog

FHT 202

**FALCON PLATFORM FOR HUNTERS****Length** 1 day | 8 hours**Cost** 2 training credits**Delivery** Regional classroom, live online or on-site**Description** Learn the best use of the Falcon platform for incident detection using proactive "hunting" investigation. This course is appropriate for those who use the Falcon platform to find evidence of incidents that did not raise alerts by other means. Hands-on lab exercises are included.**Learn More** See [FHT 202 course syllabus](#)

FHT 231

**INVESTIGATING MALWARE WITH FALCON MALQUERY****Length** 1 day | 8 hours**Cost** 2 training credits**Delivery** Regional classroom, live online or on-site**Description** Learn the best practices for malware identification and family determinations using the Falcon MalQuery Search engine. Understand specifications and benefits of using the Search Engine and Falcon MalQuery. Examine major components of MalQuery, including Search, Hunt, and Monitor. A comprehensive YARA tutorial and Hands-on lab exercises are included, enabling researchers to properly utilize the hunting.**Learn More** See [FHT 231 course syllabus](#)

FHT 240

**INVESTIGATING AND MITGATING THREATS WITH REAL TIME RESPONSE****Length** 1 day | 8 hours**Cost** 2 training credits**Delivery** Regional classroom, live online or on-site**Description** Learn the best use of the Real Time Response to remotely perform the tasks that a responder would do if they were physically present at an endpoint. The course is appropriate for those who use Real Time Response to perform remediation, host level response to detections or host investigations and it includes practical labs for students to develop hands-on skills.**Learn More** See [FHT 240 course syllabus](#)**FALCON FORENSICS**

FHT 280

**Length** 1 day | 8 hours**Cost** 2 training credits**Delivery** Regional classroom, live online or on-site**Description** Learn how to conduct investigations and threat hunt using Falcon Forensics dashboards and Splunk searches. This course is intended for threat hunters who will utilize Falcon Forensics to collect forensic information and use that information to perform investigations.**Learn More** See [FHT 280 course syllabus](#)

Training Catalog

FHT 302

**ADVANCED THREAT HUNTING WITH FALCON****Length** 3 days | 24 hours**Cost** 6 training credits**Delivery** Regional classroom, live online or on-site

Description Using CrowdStrike Falcon, participants will learn to threat hunt for indications of adversarial compromise. In addition, participants will detect when and how the compromise occurred, identify affected systems, and generate key sources of threat intelligence. Instructors will guide learners through the operationalization of threat intelligence and reporting of findings. This course culminates with a 6-hour, self-paced capstone project. Learners can apply newly acquired skills in a scenario that emulates an attack by a sophisticated adversary.

Learn More See [FHT 302 course syllabus](#)

CST 330

**CREATING INTELLIGENCE WITH FALCON****Length** 2 days | 16 hours**Cost** 4 training credits**Delivery** Regional classroom, live online or on-site

Description Learn doctoral concepts of gathering and analyzing information to create intelligence products, and about cyber threat intelligence methodologies. This course is appropriate for managers, report writers, intelligence consumers and analysts of all types who have minimal experience in intelligence functions and production. Hands-on lab exercises are included.

Learn More See [CST 330 course syllabus](#)

CST 346

**STRUCTURED ANALYTIC TECHNIQUES FOR CYBER ANALYSTS****Length** 1 day | 8 hours**Cost** 2 training credits**Delivery** Regional classroom, live online or on-site

Description Structured analytic techniques are scientifically derived tools used by analysts to abstract biases out of analysis and gain insight into the meaning and value of large sets of information. Use these techniques to provide better accuracy, relevancy and substance to intelligence reporting. Learn the five core categories of structured analysis and practice with dozens of trusted analytic tools. Hands-on lab exercises are included.

Learn More See [CST 346 course syllabus](#)

Training Catalog

OPEN SOURCE INTELLIGENCE TECHNIQUES WITH CROWDSTRIKE

Length 1 day | 8 hours

Cost 2 training credits

Delivery Regional classroom, live online or on-site

Description CrowdStrike Intelligence contains artifacts and indicators that can be used to properly attribute to attacks and can be supplemented with open source-collected information to provide contextual intelligence to your organization. Learn concepts and methodologies needed to extract indicators and artifacts from CrowdStrike Falcon applications, and conduct further open source intelligence (OSINT) gathering as part of a larger intelligence reporting effort. Develop awareness of secure online access, and use tools and techniques to enhance open source collection. This course is intended for incident responders, reverse engineers and analysts of all types. Hands-on lab exercises are included.

Learn More See [CST 351 course syllabus](#)

CROWDSTRIKE FALCON CERTIFICATION PROGRAM

The CrowdStrike Falcon Certification Program (CFCP) aligns certifications to job roles of users, from the CrowdStrike Falcon platform administrator to the front-line analyst/incident responder and proactive investigator/hunter. Certifications are developed by analyzing the skills, knowledge and abilities of subject matter experts who use the Falcon platform daily — to ensure professionals who hold certifications have demonstrated proficient use of CrowdStrike Falcon.

Available certifications include:

- [CrowdStrike Certified Falcon Administrator](#)
- [CrowdStrike Certified Falcon Responder](#)
- [CrowdStrike Certified Falcon Hunter](#)

Certification candidates can take CrowdStrike certification exams through the global network of Pearson VUE Test Centers or take the exam online using Pearson's OnVUE testing service. The cost for each exam is one (1) exam voucher; candidates will have two (2) opportunities to pass the exam successfully. Exams are time-based. Upon successful completion of an exam, the candidate will receive a score report. Certifications are valid for a period of three (3) years.

CERTIFICATIONS

CROWDSTRIKE CERTIFIED FALCON ADMINISTRATOR (CCFA)

Description This exam evaluates the candidate's knowledge and skills to manage various components of CrowdStrike's Falcon platform on a daily basis, including sensor installation.

Learning Path All four:

[FHT 100: Falcon Platform Architecture Overview](#)

[FHT 101: Falcon Platform Technical Fundamentals](#)

[FHT 105: Sensor Installation, Configuration and Troubleshooting](#)

[FHT 120: Investigation Fundamentals](#)

OR:

[FHT 200: Falcon Platform for Administrators](#)

Questions 60 questions

Pass Score 80% or higher

Length 90 minutes

CROWDSTRIKE CERTIFIED FALCON RESPONDER (CCFR)

Description This exam evaluates the candidate's knowledge and skills when responding to a detection within the Falcon console and Activity app.

Learning Path [FHT 201: Falcon Platform for Responders](#)

Questions 60 questions

Pass Score 80% or higher

Length 90 minutes

CROWDSTRIKE CERTIFIED FALCON HUNTER (CCFH)

Description This exam evaluates the candidate's knowledge and skills when responding to a detection within the Falcon console and Activity app, and using reports and queries to assist in machine auditing and proactive investigation.

Learning Path [FHT 202: Falcon Platform for Hunters](#)

Questions 60 questions

Pass Score 80% or higher

Length 90 minutes
