

THE CROWDSTRIKE STORE

Transform your IT and security with the CrowdStrike Falcon platform and trusted ecosystem to effectively stop breaches

SIMPLIFY YOUR STACK WITH TRUSTED, BEST-OF-BREED SOLUTIONS

The security landscape is crowded, leaving security and IT teams overwhelmed by excessive noise in the marketplace. With so many vendors and products to choose from, and too few resources to fully understand the capabilities and limitations of tools, organizations are left inefficient and ineffective when buying and implementing security and IT solutions to protect their business. Adding to the challenge, security stacks are complex and often built with stand-alone and siloed solutions that have little interoperability. With increased complexity, teams are prevented from acting with agility and accuracy in the fight against adversaries.

The CrowdStrike Store enables a single-agent, single-cloud ecosystem experience that allows you to quickly activate new capabilities that leverage the CrowdStrike Falcon® platform for unmatched simplicity — without need for additional agents or management of other infrastructures. The CrowdStrike Store is coupled with the patented Threat Graph which uses world-class AI and the CrowdStrike Security Cloud for actionable data, adversarial tactics, and mapped tradecraft to automatically prevent threats in real time, empowering partners and organizations with rich data to improve contextual insights.

KEY BENEFITS

- Gain operational efficiency
- Meet security requirements and gain full coverage
- Maximize infrastructure investments
- Minimize solution stack complexity with interoperability
- Extend CrowdStrike's enriched telemetry and single lightweight agent architecture, powered by CrowdStrike's Security Cloud and world-class AI

▶ **82%** of security professionals agree their organization's IT security would be more effective if all of their IT security solutions shared the same aggregated pool of data*

▶ **71%** say that integration complexity with other technology and security stacks requires improvement*

▶ **94%** have had issues when purchasing new IT security solutions for their organization*

THE POWER OF THE ECOSYSTEM

In the CrowdStrike Store, discover CrowdStrike modules, plugins that streamline the Falcon experience, third-party apps, and technology partner integrations that provide faster time-to-value, allowing your team to spend less time searching and more time optimizing your existing security investments. Easily discover and try apps or modules, and learn more about additional integrations to reduce your stack complexity and speed up your purchasing and implementation. When CrowdStrike's unified platform is paired with partner solutions, your team can eliminate blind spots and ensure that your organization has true end-to-end coverage of the entire threat landscape to stop breaches.

KEY CAPABILITIES

Gain Operational Efficiency: Simplify your operations with powerful CrowdStrike modules, partner applications, and integrations that extend the Falcon platform's single lightweight agent architecture and enriched telemetry, powered by the CrowdStrike Security Cloud and world-class AI, for seamless interoperability at scale. Minimize operational friction in your stack to catalyze your team's performance with simple-to-integrate tools that leverage CrowdStrike's single aggregated pool of data and cloud-native capabilities. You can see faster time-to-value and drastically speed up implementation, with less strain to your budget and resources, through the CrowdStrike Store's open ecosystem of easily integratable solutions enabled by the Falcon platform.

Maximize the Return on Your Existing Investments: Get more from your existing Falcon platform investments by integrating validated solutions that boost the power of CrowdStrike's single lightweight agent architecture and rich telemetry to address your unique use cases. Empower your team with unified tools that leverage your existing data and security insights to accelerate efficiency and efficacy, allowing you to optimize your investments with scalable technology.

Achieve Effective and Efficient Security that Meets Your Needs: Implement solutions that are effective and efficient at stopping breaches from Day One with unparalleled insights and capabilities from the Falcon platform and trusted partners. By seamlessly integrating best-of-breed solutions with the CrowdStrike Security Cloud, world-class AI, and single lightweight-agent architecture, you gain holistic security that works faster to effectively protect your organization. Cut through the noise in the market with expert advice from CrowdStrike's security advisors to find and implement the best solution for your budget, team and organization.

ABOUT CROWDSTRIKE

CrowdStrike Holdings, Inc. (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with one of the world's most advanced cloud-native platforms for protecting critical areas of enterprise risk – endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform enables customers to benefit from rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.
