

Complete protection across all critical areas of risk, delivered via a unified platform and single agent.

CrowdStrike is a recognized leader in security, trusted by more than 23,000 customers worldwide.

Reduce risk

with complete visibility, high detection coverage, rapid response rates and complete protection across the entire threat landscape.

Reduce complexity

through a centralized platform that's easy to manage while getting complete security capabilities with minimal impact on performance.

The single lightweight **CrowdStrike Falcon®** agent protects endpoints, workloads, identity and data.

Gain immediate time-to-value

with a cloud-native platform that deploys quickly and integrates seamlessly.

Reduce operating costs

with a cloud-based platform that eliminates on-premises infrastructure and consolidates siloed security tools.

Adversaries continue to be relentless in their attacks as they become faster and more sophisticated.

79 mins
average eCrime breakout time

50%
increase in interactive intrusions

71%
of attacks were malware-free

95%
increase in cloud exploitation incidents
