

# Reveald: Endpoint Defense Management 360°

Hands-on defense against modern threats with  
CrowdStrike Falcon® Complete and Reveald

## Challenges

As the threat landscape grows in complexity, organizations need proactive, expert-driven detection and response to mitigate risk across the entire attack surface. For many organizations, however, it is a challenge to hire, train and retain employees with the expertise needed to effectively and seamlessly investigate, remediate and defend against sophisticated cybersecurity threats.

## Solution

Success in the fight against modern adversaries requires a focus on speed and maturity – organizations can't afford to simply react to alerts. Reveald Endpoint Defense Management 360° (EDM360°) is a co-delivered service from Reveald and CrowdStrike Falcon® Complete that arms defenders with skilled guidance and support at every stage of the endpoint protection lifecycle, from planning and deployment to detection, investigation and response. Reveald provides personalized service to help customers achieve key business objectives, with expert guidance on risk minimization, and vulnerability prioritization delivered in close collaboration with the Falcon Complete managed detection and response (MDR) team, for 24/7 threat hunting, investigation, real-time response and remediation against cyber threats at scale. Reveald EDM360° built on the Epiphany Intelligence Platform ensures defenses are always optimized and ready to mitigate risk and accelerate the transition from reactive to predictive cybersecurity for enterprises.

## Key benefits

- **Reduce costs:** Consolidate tools and vendors with full-spectrum managed detection and response, gaining visibility across your full set of CrowdStrike Falcon platform modules
- **Receive seamless security service:** This white-glove service manages deployment, configuration, tuning and optimization of your Falcon platform environment
- **Gain 24/7 elite expertise:** The service is delivered in close partnership with the Falcon Complete team

## Business value

Use Case/Challenge	Benefits
Fragmented visibility and management	Reveald empowers organizations to eliminate gaps in visibility and consolidate tools and vendors with full-spectrum managed detection and response for the Falcon platform
Understaffed IT and security teams burdened by platform management	The hands-on service delivered by Reveald and Falcon Complete helps internal teams maximize efficiency and free up time to focus on critical business initiatives by offloading the management, deployment, configuration, tuning, optimization and support of their security technology
Slow response and inefficient defenses	Gain continuous monitoring and management of your environment to ensure threats are proactively identified and eliminated right away

## Better together

CrowdStrike and Reveald work side-by-side to deliver hands-on management, monitoring, and surgical response, bolstering customer defenses against advanced cyber threats and helping them shift from reactive to proactive cybersecurity.

## Key capabilities

**Prepare:** Get operational fast on the Falcon platform with streamlined onboarding and configuration from Falcon Complete. Step-by-step deployment, integration and training for the Reveald Epiphany Intelligence Platform helps establish key metrics.

**Monitor and respond:** Expert threat hunting, monitoring and response protects you from emerging threats around the clock.

**Optimize:** Proactive health checks ensure your defenses are properly deployed and updated and your environment is tuned and optimized.

**Manage:** Receive ongoing reports on progress toward business objectives and tailored expert guidance on the best path to minimize risk.

“The combination of Reveald’s Epiphany Intelligence Platform and CrowdStrike’s Falcon Complete team allows us to protect our customers from the most sophisticated threats around the clock, while reducing risk by shifting from reactive to predictive cybersecurity. CrowdStrike’s unique ability to identify and respond to threats at scale, combined with Reveald’s continuous optimization and exposure management, drives measurable improvements in cybersecurity maturity for our customers. We’re proud to partner with CrowdStrike on this mission.”

**Brett Kelsey, President and Chief Operating Officer at Reveald**

*Reveald is a trusted CrowdStrike Managed Services Provider, delivering comprehensive security operations with CrowdStrike Falcon products.*

## About Reveald

Reveald guides organizations along their journey from reactive to proactive defense. Reveald's AI-driven Epiphany Intelligence Platform™ empowers security teams to break free from existing reactive processes by leveraging Continuous Threat Exposure Management (CTEM), supported by the expertise to guide them on every step of the journey. Known for its innovative and proactive approach to cyber threats, the company is powered by a client-first approach, prioritizing risk mitigation and operational efficiency. ## About CrowdStrike

**CrowdStrike** (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

**CrowdStrike: We stop breaches.**
