

# CrowdStrike Accessibility Conformance Report

VPAT® Version 2.4 (Revised) — March 2022<sup>1</sup>

Name of product/version	CrowdStrike® Falcon LogScale™	
Product description	Website	
Report Date	November 27, 2023	
Contact Information	compliance@crowdstrike.com	
Notes		
Evaluation methods used	This conformance report is based on the results of an accessibility audit conducted by TetraLogical on a representative sample of pages across selected user journeys for the purpose of assessing conformance to the Web Content Accessibility Guidelines (WCAG) 2.1.  The W3C Website Accessibility Conformance Evaluation Methodology (WCAG-EM) was followed for conducting the accessibility audit. The testing included manual accessibility testing, automated accessibility tools and testing with assistive technology across multiple platforms and browsers.  The following tools were used as part of the audit to identify potential accessibility issues:  Desktop browsers: Firefox, Chrome, Edge, Safari Mobile browsers: iOS Safari, Android Chrome Assistive technologies: JAWS 2021, NVDA, iOS VoiceOver, Android TalkBack Accessibility testing tools: ARC Toolkit browser plugin, Color Contrast Analyzer	

# **Applicable Standards/Guidelines**

The report covers the degree of conformance for the following accessibility standards/guidelines:

Standard/guideline	Included in report
Web Content Accessibility Guide- lines 2.0	Level A — Yes Level AA — Yes Level AAA — No
Web Content Accessibility Guide- lines 2.1	Level A — Yes Level AA — Yes Level AAA — No
Revised Section 508 standards published January 18, 2017, and corrected January 22, 2018	Yes
EN 301 549 Accessibility requirements suitable for public procurement of ICT products and services in Europe — V3.1.1 (2019-11) and EN 301 549 Accessibility requirements for ICT products and services — V3.2.1 (2021-03)	Yes

#### **Terms**

The terms used in the Conformance Level information are defined as follows:

- Supports: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- Partially supports: Some functionality of the product does not meet the criterion.
- **Does not support:** The majority of product functionality does not meet the criterion.
- Not applicable: The criterion is not relevant to the product.
- Not evaluated: This product has not been evaluated against the criterion.

# **WCAG 2.0/2.1 Report**

**Note:** When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes and accessibility-supported ways of using technology, as documented in the WCAG 2.0 Conformance Requirements.

# Table 1: WCAG 2.0/2.1 Success Criteria, Level A

#### Notes:

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Partially supports	Non-text content that is presented to the user mostly has a text alternative that serves the equivalent purpose. Examples that do not have an alternative include the following:  I cons used as part of the visible content for interactive elements  Complex charts and graphics
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Not applicable	The website does not include prerecorded audio-only or prerecorded video-only content.

Version 2.4 (2024)

Criteria	Conformance Level	Remarks and Explanations
1.2.2 Captions (Prerecorded) (Level A)	Not applicable	The website does not include any prerecorded audio content within synchronized media.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Not applicable	The website does not include any synchronized media that requires an accessible alternative.
1.3.1 Info and Relationships (Level A)	Partially supports	Information, structure and relationships conveyed through presentation cannot be programmatically determined and are not available in text. Examples include:  • Listbox, menu and menu item semantics not identified  • Headings not marked up as headings  • Menu buttons identified as switches

Criteria	Conformance Level	Remarks and Explanations
1.3.2 Meaningful Sequence (Level A)	Partially supports	A correct reading sequence can be programmatically determined for all content, with the following exception:  Data tables in the search page are visibly positioned above a heading that titles it, but the heading is placed after the table in the DOM
1.3.3 Sensory Characteristics (Level A)	Supports	Instructions provided for understanding and operating content do not rely solely on sensory characteristics of components.
1.4.1 Use of Color (Level A)	Partially supports	Color is not used as the only visual means of conveying information, indicating an action, prompting a response or distinguishing a visual element, with the following exception:  • The state (passing/ failing) of individual parser tests is indicated using a colored left border

Criteria	Conformance Level	Remarks and Explanations
1.4.2 Audio Control (Level A)	Not applicable	The website does not include any audio controls.
2.1.1 Keyboard (Level A)	Partially supports	All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes (except where the underlying function requires input that depends on the path of the user's movement and not just the endpoints), with some exceptions. These include:  New parser dialog tabs are not in focus order  The input fields for editing values in the CSV output only appear (by replacing the text content) when the text is clicked on with a pointer; this means that keyboard users cannot edit the file content  The "Stop all queries," "Stop exporting queries" and "Stop static queries" buttons have tooltips that cannot be displayed using the keyboard

Criteria	Conformance Level	Remarks and Explanations
2.1.2 No Keyboard Trap (Level A)	Partially supports	Where nonstandard methods are required to navigate away from a component, the user is advised of this beforehand, with some exceptions. These include:  • Once focus is moved into the "filter editor" or "Monaco editor," there is a keyboard command that allows pass-through of TAB/SHIFT+TAB (CTRL+M); this allows keyboard movement out of the editor, but discovery of this is not available to keyboard-only users  • Navigating in the files list and attempting to open the files "listbox" results in the page reloading, as the "button" that displays the listbox is nested within the link
2.1.4 Character Key Shortcuts (Level A 2.1 only)	Supports	The website includes keyboard shortcuts, but these shortcuts are only active when the related component receives focus.
2.2.1 Timing Adjustable (Level A)	Supports	The website has time limits, but these are set to longer than 20 hours.

Criteria	Conformance Level	Remarks and Explanations
2.2.2 Pause, Stop, Hide (Level A)	Partially supports	A mechanism is available to pause, stop or hide all auto-updating information that starts automatically and is presented in parallel with other content, with one exception:  On the Query monitoring — Monitor page, the queries only appear for a short time and then are removed
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	The website does not include content that flashes.
2.4.1 Bypass Blocks (Level A)	Partially supports	A mechanism is available to bypass blocks of content that are repeated on multiple pages, with some exceptions. These include:  Parsers page Repositories and views page

Criteria	Conformance Level	Remarks and Explanations
2.4.2 Page Titled (Level A)	Supports	All pages have titles that describe their topic or purpose.
		All focusable components receive focus in an order that preserves meaning and operability, with some exceptions. These include:
2.4.3 Focus Order (Level A)	Partially supports	<ul> <li>Pressing the release notes button displays the release notes list; it is expected that the focus will move to the first link in the release notes, but this does not happen</li> <li>When the Queries panel is displayed, pressing ESC should close the panel and move focus back to the Queries button, but it does not; it moves focus to the "Filter fields" input</li> </ul>
2.4.4 Link Purpose (In Context) (Level A)	Partially supports	The purpose of all links can be determined from the link text alone (or from the link text together with its programmatically determined link context), with some exceptions. These include:  • Links with nested controls, which results in the link text labels including the nested control text labels

Criteria	Conformance Level	Remarks and Explanations
2.5.1 Pointer Gestures (Level A 2.1 only)	Not applicable	The website does not require multipoint/path-based gestures.
2.5.2 Pointer Cancellation (Level A 2.1 only)	Supports	For all functionality that can be operated using a single pointer, all pointer event interactions can be cancelled as per the SC requirements.
2.5.3 Label in Name (Level A 2.1 only)	Partially supports	For all user interface components with labels that include text or images of text, the accessible name of the component contains the text that is presented visually, with some exceptions. These include:  • The data volume button's accessible name does not match or contain the visible text label  • The visible search input placeholder text "Find repository or view" does not match or contain the accessible name

Criteria	Conformance Level	Remarks and Explanations
2.5.4 Motion Actuation (Level A 2.1 only)	Not applicable	The website does not include functionality that can be operated by device motion or user motion.
3.1.1 Language of Page (Level A)	Supports	The default language of all pages can be programmatically determined.
3.2.1 On Focus (Level A)	Supports	No user interface component initiates a change of context when it receives focus.
3.2.2 On Input (Level A)	Supports	Changing the setting of user interface components does not automatically cause a change of context.

Criteria	Conformance Level	Remarks and Explanations
3.3.1 Error Identification (Level A)	Supports	For all input errors that are automatically detected, the item that is in error is identified and the error is described to the user in text.
		abels or instructions are provided when content requires user input, with some exceptions. These include:
3.3.2 Labels or Instructions (Level A)	Partially supports	<ul> <li>The error message "Email address was not found" for the email input is not programmatically associated with the email input</li> <li>When navigating the Queries list, there is a nested "Details" button; though this can be invoked using the right arrow key (not included in the focus order), there are no instructions available for this nonstandard behavior</li> </ul>
4.1.1 Parsing (Level A)	Supports	For WCAG 2.0, 2.1 and 2.2, the September 2023 errata update indicates this criterion is always supported. See the WCAG 2.0 Editorial Errata and the WCAG 2.1 Editorial Errata.

Criteria	Conformance Level	Remarks and Explanations
4.1.2 Name, Role, Value (Level A)	Partially supports	For all user interface components, the name and role can be programmatically determined; states, properties and values that can be set by the user can be programmatically set; and notification of changes to these items is available to user agents, including assistive technologies, with some exceptions. These include:  Release notes close button SVG does not have an accessible name  The presence of submenus in the "options" menus is not conveyed programmatically  "Columns" listbox not marked up as a listbox

# Table 2: WCAG 2.0/2.1 Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not applicable	The website does not include live audio content within synchronized media.
1.2.5 Audio Description (Prerecorded) (Level AA)	Not applicable	The website does not include prerecorded video content within synchronized media.
1.3.4 Orientation (Level AA 2.1 only)	Supports	The website does not restrict the view and operation of content to a single display orientation.
1.3.5 Identify Input Purpose (Level AA 2.1 only)	Partially supports	The purpose of all input fields that collect information about the user can be programmatically determined, with one exception:  Login page email field

Criteria	Conformance Level	Remarks and Explanations
1.4.3 Contrast (Minimum) (Level AA)	Partially supports	The visual presentation of all text (and all images of text) has a contrast ratio of at least 4.5:1 (while large-scale text and images of large-scale text have a contrast ratio of at least 3:1), with some exceptions. These include:  • The Parser page delete test button text has insufficient contrast  • Repository and view tab number text has insufficient contrast  • The Fleet settings select enrollment token combobox text has insufficient contrast
1.4.4 Resize text (Level AA)	Partially supports	Except for captions and images of text, all text can be resized without assistive technology by zooming up to 200% with no loss of content or functionality, with some exceptions. These include:  • At greater than 150% zoom in the Parser page, the view of tests becomes a letterbox-like scrollable area that is very difficult to read  • In the Organization setting query monitor page at 175% zoom, the current queries table is fully obscured when a query is selected
1.4.5 Images of Text (Level AA)	Partially supports	Text, rather than images of text, is used to convey information, with the following exception:  • Within a usage graph, images of text are used to label the axes

Criteria	Conformance Level	Remarks and Explanations
1.4.10 Reflow (Level AA 2.1 only)	Partially supports	All content can be resized to a width of 320 CSS pixels/a height of 256 CSS pixels without loss of content or functionality and without requiring scrolling in two dimensions (except for maps, images, diagrams and data tables), with some exceptions. These include:  • Horizontal scrolling is required to reach the "Run" button in the Search header  • On the Search - Event List view & Table view page, overflowing content is hidden, which means that it is not visually available and cannot be viewed  • On the Edit Parser - Code page, the "Test Data" panel content becomes obscured and unusable
1.4.11 Non-text Contrast (Level AA 2.1 only)	Partially supports	The visual presentation of all user interface components and other graphical objects (except for those whose appearance is determined by the browser/operating system/other user agent) has a contrast ratio of at least 3:1, with one exception:  • A visual graph uses dark blue bars to represent groups of events against a black background

Criteria	Conformance Level	Remarks and Explanations
1.4.12 Text Spacing (Level AA 2.1 only)	Partially supports	The website allows for the changing of all relevant text style properties without loss of content or functionality, with one exception:  On the Login page, the "Next" button text becomes truncated to "N"
1.4.13 Content on Hover or Focus (Level AA 2.1 only)	Partially supports	Additional content displayed on hover or focus is dismissible, hoverable and persistent, with some exceptions. These include:  • Custom tooltips such as those on the favorite buttons are not dismissible without moving the mouse cursor or keyboard focus  • The labels for the switch controls are displayed on hover/focus but cannot be dismissed without moving the cursor or moving focus  • The "Delete tag" label is displayed on hover/focus, but it is not dismissible without moving the cursor or focus
2.4.5 Multiple Ways (Level AA)	Does not support	There is only one way to locate webpages that are not the result of, or a step in, a process. This is due to the site lacking either search functionality or a sitemap.

Criteria	Conformance Level	Remarks and Explanations
2.4.6 Headings and Labels (Level AA)	Partially supports	All headings and labels appropriately describe the topic or purpose of their related content, with some exceptions. These include:  • The "Time Zone Selector" control has a visible label of the currently selected value  • The "Time interval selected value  • The "Time interval selected value  • The "Select-widget-type" listbox button has an accessible name/visible label of the currently selected type
2.4.7 Focus Visible (Level AA)	Partially supports	<ul> <li>All keyboard operable user interface components include an indication of keyboard focus, with some exceptions. These include:</li> <li>Buttons in the release notes do not have a visible focus indicator</li> <li>On the Search – Table View page, links in dialogs do not have a visible focus indicator</li> <li>On the Parser list page, each row contains switch controls nested within a link; the link itself has no visible focus indicator.</li> </ul>

Criteria	Conformance Level	Remarks and Explanations
3.1.2 Language of Parts (Level AA)	Supports	The human language of each passage or phrase in the content of all pages can be programmatically determined.
3.2.3 Consistent Navigation (Level AA)	Supports	Navigational mechanisms that are repeated on multiple webpages within a set of webpages occur in the same relative order each time they are repeated unless a change is initiated by a user.
3.2.4 Consistent Identification (Level AA)	Partially supports	All components that have the same functionality within a set of webpages are identified consistently, with one exception:  On the Repositories and Views page, the "data volume" buttons have a down arrowhead indicating they invoke a menu, but they don't
3.3.3 Error Suggestion (Level AA)	Supports	For all automatically detected input errors where suggestions for correction are known, these suggestions are provided to the user (unless doing so would jeopardize the security or purpose of the content).

Criteria	Conformance Level	Remarks and Explanations
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Not applicable	The website does not include pages that cause legal commitments or financial transactions for the user to occur, modify or delete user-controllable data in data storage systems or submit user test responses.
4.1.3 Status Messages (Level AA 2.1 only)	Partially supports	In all content implemented using markup languages, status messages can be programmatically determined through role or properties such that they can be presented to the user by assistive technologies without receiving focus, with some exceptions. These include:  • When searching the repositories, the default list is filtered; this is not announced by assistive technologies  • Upon entering an event list, the system tries to automatically load more content as part of an infinite scrolling pattern; as the system loads more content, a status message is presented — the content is not announced by assistive technologies  • On the Parser page, error notifications are not announced by assistive technology

# Table 3: WCAG 2.0/2.1 Success Criteria, Level AAA

**Notes: Not Tested** 

# **Revised Section 508 Report**

Notes:

# **Chapter 3: Functional Performance Criteria (FPC)**

Notes: The mapping of WCAG 2.0 success criteria to the criteria in this chapter is based on Section 508: Mapping of WCAG 2.0 to Functional Performance Criteria.

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content  2.1.1 Keyboard  2.4.1 Bypass Blocks  2.4.3 Focus Order  2.4.4 Link Purpose (In Context)  2.4.5 Multiple Ways  2.4.6 Headings and Labels  3.3.3 Labels or Instructions  4.1.2 Name, Role, Value

Criteria	Conformance Level	Remarks and Explanations
302.2 With Limited Vision	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content 1.3.1 Info and Relationships 1.3.2 Meaningful Sequence 1.4.1 Use of Color 1.4.3 Contrast (Minimum) 1.4.4 Resize Text 1.4.5 Images of Text 1.4.5 Images of Text 2.1.1 Keyboard 2.1.2 No Keyboard Trap 2.4.1 Bypass Blocks 2.4.3 Focus Order 2.4.4 Link Purpose (In Context) 2.4.5 Multiple Ways 2.4.6 Headings and Labels 2.4.7 Focus Visible 3.2.4 Consistent Identification 3.3.2 Labels or Instructions 4.1.2 Name, Role, Value

Criteria	Conformance Level	Remarks and Explanations
302.3 Without Perception of Color	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.4.1 Use of Color  1.4.3 Contrast (Minimum)
302.4 Without Hearing	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criterion:  1.1.1 Non-text Content
302.5 With Limited Hearing	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criterion:  1.1.1 Non-text Content
302.6 Without Speech	Supports	

Criteria	Conformance Level	Remarks and Explanations
302.7 With Limited Manipulation	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  • 2.1.1 Keyboard  • 2.1.2 No Keyboard Trap  • 2.4.1 Bypass Blocks  • 2.4.2 Page Titled  • 2.4.3 Focus Order  • 2.4.4 Link Purpose (In Context)  • 2.4.5 Multiple Ways  • 2.4.6 Headings and Labels  • 2.4.7 Focus Visible  • 3.2.4 Consistent Identification  • 4.1.2 Name, Role, Value
302.8 With Limited Reach and Strength	Supports	

Criteria	Conformance Level	Remarks and Explanations
302.9 With Limited Language, Cognitive, and Learning Abilities	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content  1.3.1 Info and Relationships  1.3.2 Meaningful Sequence  1.4.1 Use of Color  1.4.5 Images of Text  2.1.1 Keyboard  2.2.2 Pause, Stop, Hide  2.4.1 Bypass Blocks  2.4.3 Focus Order  2.4.4 Link Purpose (In Context)  2.4.5 Multiple Ways  2.4.6 Headings and Labels  2.4.7 Focus Visible  3.2.4 Consistent Identification  3.3.2 Labels or Instructions  4.1.2 Name, Role, Value

# **Chapter 4: Hardware**

Notes: Falcon LogScale is not a hardware product.

# **Chapter 5: Software**

Notes: This product is a web application and is not subject to the requirements of this section.

# **Chapter 6: Support Documentation and Services**

Notes: The Documentation and Support Services for this product were not evaluated

# **EN 301 549 Report**

Notes:

# **Chapter 4: Functional Performance Statements (FPS)**

Notes:

Criteria	Conformance Level	Remarks and Explanations
4.2.1 Usage without vision	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content 1.3.1 Info and Relationships 1.3.2 Meaningful Sequence 1.4.1 Use of Color 2.1.1 Keyboard 2.1.2 No Keyboard Trap 2.4.1 Bypass Blocks 2.4.3 Focus Order 2.4.4 Link Purpose (In Context) 2.4.5 Multiple Ways 2.4.6 Headings and Labels 2.5.3 Label in Name 3.2.4 Consistent Identification 3.3.3 Labels or Instructions 4.1.2 Name, Role, Value 4.1.3 Status Messages

Criteria	Conformance Level	Remarks and Explanations
4.2.2 Usage with limited vision	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content  1.3.1 Info and Relationships  1.3.2 Meaningful Sequence  1.4.1 Use of Color  1.4.3 Contrast (Minimum)  1.4.4 Resize Text  1.4.5 Images of Text  1.4.10 Reflow  1.4.11 Non-text Contrast  1.4.12 Text Spacing  1.4.13 Content on Hover or Focus  2.1.1 Keyboard  2.1.2 No Keyboard Trap  2.4.1 Bypass Blocks  2.4.3 Focus Order  2.4.4 Link Purpose (In Context)  2.4.5 Multiple Ways  2.4.6 Headings and Labels  2.4.7 Focus Visible  2.5.3 Label in Name  3.2.4 Consistent Identification  3.3.2 Labels or Instructions  4.1.2 Name, Role, Value  4.1.3 Status Messages

Criteria	Conformance Level	Remarks and Explanations
4.2.3 Usage without perception of colour	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.4.1 Use of Color  1.4.3 Contrast (Minimum)  1.4.11 Non-text Contrast
4.2.4 Usage without hearing	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criterion:  1.1.1 Non-text Content
4.2.5 Usage with limited hearing	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content  1.2.1 Audio-only and Video-only (Prerecorded)  1.2.2 Captions (Prerecorded)  1.2.4 Captions (Live)  1.4.2 Audio Control  3.1.1 Language of Page  3.1.2 Language of Parts  3.3.4 Error Prevention (Legal, Financial, Data)
4.2.6 Usage with no or limited vocal capability	Supports	

Criteria	Conformance Level	Remarks and Explanations
4.2.7 Usage with limited manipulation or strength	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.4.13 Content on Hover or Focus  1.4.13 Keyboard  2.1.1 Keyboard  2.1.2 No Keyboard Trap  2.4.1 Bypass Blocks  2.4.3 Focus Order  2.4.4 Link Purpose (In Context)  2.4.5 Multiple Ways  2.4.6 Headings and Labels  2.4.7 Focus Visible  2.5.3 Label in Name  3.2.4 Consistent Identification  4.1.2 Name, Role, Value
4.2.8 Usage with limited reach	Supports	
4.2.9 Minimize photosensitive seizure triggers	Supports	

Criteria	Conformance Level	Remarks and Explanations
4.2.10 Usage with limited cognition, language or learning	Partially supports	Refer to issues identified in the WCAG 2.0/2.1 section, specifically the following criteria:  1.1.1 Non-text Content 1.3.1 Info and Relationships 1.3.2 Meaningful Sequence 1.4.1 Use of Color 1.4.5 Images of Text 1.4.12 Text Spacing 2.1.1 Keyboard 2.2.2 Pause, Stop, Hide 2.4.1 Bypass Blocks 2.4.3 Focus Order 2.4.4 Link Purpose (In Context) 2.4.5 Multiple Ways 2.4.6 Headings and Labels 2.4.7 Focus Visible 2.5.3 Label in Name 3.2.4 Consistent Identification 3.3.2 Labels or Instructions 4.1.2 Name, Role, Value 4.1.3 Status Messages
4.2.11 Privacy	Supports	

# **Chapter 5: Generic Requirements**

Notes: CrowdStrike Falcon Logscale supports standard assistive technologies and is therefore not subject to the Closed Functionality criteria described in this Chapter.

# **Chapter 6: ICT with Two-Way Voice Communication**

Notes: CrowdStrike Falcon LogScale does not offer two-way voice communication and is therefore not subject to the requirements of this section

# **Chapter 7: ICT with Video Capabilities**

Notes: This product does not offer video captioning and audio description and is therefore not subject to the requirements of this section.

# **Chapter 8: Hardware**

Notes: Falcon LogScale is not a hardware product.

# **Chapter 9: Web**

See the WCAG 2.0/2.1 Report section.

# **Chapter 10: Non-Web Documents**

Notes: CrowdStrike Falcon LogScale does not include Non-Web-Documents.

# **Chapter 11: Software**

Notes: CrowdStrike Falcon LogScale is a web application and is not subject to the requirements of this section.

# **Chapter 12: Documentation and Support Services**

Notes: The Documentation and Support Services for this product were not evaluated.

# **Chapter 13: ICT Providing Relay or Emergency Service Access**

Notes: CrowdStrike Falcon LogScale does not provide relay or emergency service access. Not tested.

# **Legal Disclaimer**

Any VPAT posted anywhere on CrowdStrike's website, or otherwise publicly available, shall not be construed to be included in any contract, either explicitly or implicitly, in whole or in part, absent CrowdStrike's express acknowledgement through language in the contract itself that such report or its substantive equivalent is included.
