

Falcon Endpoint and Identity Protection Elite

Take breach prevention to the next level

Stop breaches with full endpoint and identity protection, while enabling visibility into accounts, assets and app usage

CrowdStrike Falcon® Endpoint and Identity Protection Elite stops breaches by combining next-gen AV (NGAV), endpoint detection and response (EDR), managed threat hunting, integrated threat intelligence and IT hygiene. In addition, Falcon Elite enables frictionless identity security with real-time threat prevention and IT policy enforcement using identity, behavioral and risk analytics.

Key product capabilities

AI-powered NGAV

- Protects against the entire spectrum without requiring daily updates
- Combines the best prevention technologies — machine learning, AI-powered indicators of attack (IOAs), exploit blocking, high-performance memory scanning and more — to stop ransomware and fileless attacks
- Covers the gaps left by legacy AV and fully protects endpoints online and offline

Intelligent EDR

- Prevents silent failure by capturing raw events for automatic detection of malicious activity, providing unparalleled visibility, proactive threat hunting and forensic investigation
- Unravels an entire attack in the easy-to-use CrowdScore™ Incident Workbench enriched with context and threat intelligence data
- Provides powerful response action to contain, investigate and remediate compromised systems

24/7 managed threat hunting

- An elite team of security experts proactively hunts, investigates and advises on activity in your environment to ensure threats and high-priority alerts don't get missed
- Alert prioritization uniquely pinpoints the most urgent threats in your environment and resolves false positives
- Guided response provides clarity on an attack and guidance on what to do next

Identity protection

- Enables unified visibility and actionable insights on workforce identities across multi-directory environments
- Delivers hyper-accurate detection of identity-driven threats, reducing response time dramatically
- Enables real-time prevention of identity attacks with conditional access policies

Key benefits

- Stops breaches by providing unified endpoint and identity protection
- Provides unparalleled real-time visibility of events and activities across endpoints and identities
- Accelerates investigation and remediation and ensures stealthy attacks don't go undetected 24/7
- Orchestrates and automates complex workflows with Falcon Fusion to simplify security operations and accelerate response
- Shows you the big picture with CrowdScore, your enterprise threat score
- Reveals areas of exposure and elevates your security expertise and capabilities

CrowdStrike Products

Falcon Endpoint and Identity Protection Elite

IT hygiene

- Provides detailed visibility over applications, assets and user accounts
- Identifies rogue computers and unprotected systems
- Sees who and what is on your network at all times

Device control

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

Firewall management

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

Integrated threat intelligence

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection

Cloud-native platform

Reduces cost and complexity by eliminating the need for constant signature updates, on-premises management infrastructure and complex integrations

Enables the industry's fastest deployment and rapid operationalization — without requiring a reboot after installation

Only CrowdStrike provides full, automated protection across endpoints without impacting endpoint performance and end-user productivity

About CrowdStrike

[CrowdStrike](#) (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

CrowdStrike: We stop breaches.
